

ALLIES BATTERING AXIS ON THREE FRONTS

Meandering  
Along the  
Main Stem

By WASH FAYETTE  
That 200 foot stack of The Dayton Power and Light Co. which I can see from my desk, is the tallest in this part of Ohio, and when it was built years ago, it attracted widespread attention.  
I have seen a great many tall stacks since the one here was erected, but the greatest of all of them is located at Sudbury, Canada, on the northern shore of Georgian Bay.  
The big stacks at Sudbury are at the huge smelters of the International Nickel Co., and are 600 feet in height. By the way the only branch of the International Nickel Company in America is located at Huntington, West Virginia, I am told.  
The great height of the big stacks at Sudbury is necessary to carry off the poisonous fumes which pour from the stacks as result of the smelting process, and before the tall stacks were built a number of years ago, the fumes settled over the countryside and seared the vegetation as well as threatened the health of those living near the big plant.  
When I first saw the tall stacks while some 20 miles distant from Sudbury, the yellowish smoke was pouring from them and had ascended several thousands of feet into the air, where it spread out in a cloud like a huge umbrella. The smoke made one think of a volcano belching forth smoke and fumes.  
By the way the plant at Sudbury is handling the richest nickel and copper deposits on the North American continent, and part of the nickel ore is nearly pure nickel.  
Paul Fitzwater . . . the director and sparkplug of that amazing High School Band . . . has come up with another idea . . . and, just as you would expect, he's got something, as the saying goes.  
Paul thinks the folks hereabouts would enjoy a good old fashioned community sing . . . what with war keeping everyone more or less tense . . . and tire rationing putting reasonable limits on many of the usual forms of entertainment . . . it would seem that a community sing would be just the thing to let off a little steam, so to speak . . . and relax . . . you know music is one of the oldest kinds of soothing syrup . . . and one of the finest kinds of entertainment . . . gives everybody an opportunity to participate . . . rather than being entertained.  
Paul is just a little skeptical as to how the folks would take to it . . . you know he has a deep-seated aversion to starting anything that doesn't pan out . . . he said he was wondering whether an evening of singing would be enough . . . or whether there would have to be an added attraction to get the people out . . . say a speaker of some note . . . once the folks got into the swing of the songs, however, he believes they would want more and more.  
The high school auditorium would be just the place for such a friendly-and-homey gathering . . . there's a fine pipe organ and, of course, the piano . . . before there was so much artificial entertainment, people got together in the churches and school houses for sociables and song-fests and such.  
If you think his idea is good, why don't you give him some encouragement? . . . if you think there should be some sort of added attraction to get it started, let him have your suggestions . . . I know he'd welcome them . . . he's that sort of a fellow.

Hitler Thought This Would Crush Russians

The Germans printed the photos in a propaganda magazine to show their forces winning a great "victory" at Stalingrad, but more than that, the photos show the fortitude and courage of the Russian people and soldiers. The Nazis said the left photo shows Stalingrad afire after attacks by Stuka dive bombers and that the Russian civilians, right, had their homes smashed by German bombs and shells. Well, Stalingrad has held out against the worst the Nazis could hurl against it and now it appears the siege may be broken.

NAZIS FIGHT FOR AFRICA

Supply Lines Riddled and  
Defenders Subjected to  
Severe Assaults

(By The Associated Press)  
Heavy blows to the Axis re-sounded on three fronts in the world's far-flung battle zones today.

1. Solomon Islands—American warships scored a big new victory over the Japanese off Guadalcanal, destroying nine more vessels in a night battle in which upwards of 8,000 to 10,000 enemy troops lost their lives.

2. Tunisia—American and British troops crushed a series of desperate German attempts to recapture key points on the approaches to Bizerte and Tunis, but heavy losses have been suffered on both sides and a decisive battle remains to be fought.

A German version asserted that American forces in Tunisia were on the defensive, pressed closely together, in a continuing battle around Tebourba, key rail junction 35 miles south of Bizerte and 20 miles west of Tunis.

By contrast, Allied headquarters last night declared the Germans had been hurled back in a second counterattack near Tebourba, which remained in Allied hands.

Red Drive Rolls On

3. Russia—Soviet dispatches reported that the Red armies had driven the last Germans from the north section of the Don River elbow, above Stalingrad, and punched another hole in the Nazi lines west of Rostov on the blizzard-swept Moscow front, where Adolf Hitler was reported frantically rushing ill-trained reserves into action.

In the Solomons, the Navy announced that two Japanese troop transports, a cargo ship and six escorting warships were sent to the bottom when the enemy blundered into an American naval trap under cover of darkness Monday night.

The Navy said the Japanese attempt to land reinforcements for

PETAIN IS PRISONER  
OF AXIS NOW, TIP

Aging Marshal's Fight with  
Laval Is Bared

NEW YORK, Dec. 4.—(P)—Marshal Petain, a prisoner of the Nazis in all but name, virtually has been stripped of power and a new all-out collaborationist regime is emerging in Vichy under the guidance of Pierre Laval, the Associated Press was informed today by usually reliable sources.  
The identity of these informants may not be divulged but they are known to have had access to authoritative Vichy circles, including persons in high diplomatic places and one man until recently a member of Petain's cabinet.  
This former cabinet member told of deceit and coercion by Laval and his cohorts to bend the old marshal to their will and of Petain's own resigned admission that affairs in Vichy had become a matter of each man for himself.

BLAME FOR BIG FIRE TOLL

ON IMITATION LEATHER

BOSTON, Dec. 4.—(P)—Attorney General Bushnell today possessed a state chemists' report that burning imitation leather furnishings produced a poisonous gas in the Cocoanut Grove night club fire that took 491 lives.  
The gas is essentially the same as that which played a part in the Cleveland Clinic fire in Cleveland on May 15, 1929, when 124 persons lost their lives.

Tanker-barge Breaks Up  
Off Cleveland With Loss  
Of 18 Crew Members

CLEVELAND, Dec. 4.—(P)—The terse report—"all hands lost"—today told the fate of 18 crew members after the tanker-barge Cleveco broke up and sank, raising to 32 the toll in a double disaster on icy Lake Erie.  
The life-jacketed bodies of eight of the Cleveco's crew were found near a long patch of oil slick late yesterday, nearly 18 hours after the vessel was last sighted. This led owners to conclude the barge, carrying 24,000 barrels of oil to eastern war plants, went down in the high seas and declare "in all probability all hands on board have been lost."

Boats and planes continued today a search for the bodies of seamen still missing. The tug admiral, while towing the Cleveco from Toledo to Cleveland, sank Wednesday with loss of her 14-man crew. Both vessels were operated by Cleveland Tankers, Inc., for its parent, The Allied Oil Co.  
The double disaster was the worst on the Great Lakes since "black Tuesday," Oct. 22, 1929—the date the car ferry Milwaukee sank in Lake Michigan with a loss of 68 lives.

BOMBERS GO TO WAR  
FROM FORD FACTORY

DETROIT, Dec. 4.—(P)—Giant consolidated B-24 E bomber planes are being delivered to the government at the Ford Willow Run Bomber Factory.

This was disclosed today to a group of news writers, including a score from the nation's capital, who visited the great factory as part of an industry tour. The writers also learned officially that production is expected to reach its peak some time during the latter half of 1943.  
Specific details regarding this latest achievement of the motor-car industry at war were not permitted.

OPA Boss Serves Notice on

NEW YORK, Dec. 4.—(P)—The American people today had it straight from Leon Henderson, Price Administration boss, that they could expect in 1943 rationing of more items—including clothing and food—and punishment of flagrant rationing violators.  
Henderson made the forecast to 4,000 industrialists of the national Association of Manufacturers. He told the industrialists that the American public had not yet reached the "bottom of the barrel" and that 1943 would bring "more rations, more red tape and rationing."

Nevertheless, he said, despite all the talk of the people's impatience "I know that the American public still has a barrel of patience overflowing."  
Henderson said one of the biggest mistakes the government had made was in underestimating industry's productive

Japs Whipped by Ex-Prize Fighter  
In All-Night Battle on Solomons

By J. NORMAN LODGE  
MARINE FRONT LINES, Guadalcanal, Nov. 22.—(Delayed)—(P)—Barney K. Ross, the game little fighting man who lost two world's championships and never cried "we wuz robbed!" today holds the greatest title he ever possessed. He was called a "damned good marine" by his captain after an overweight match with Jap snipers here on Guadalcanal.

For his undaunted show of heroism in standing guard over three wounded comrades and blazing away in defiance, although it was almost certain death to remain exposed to a hidden machinegun nest, Private Ross is now a corporal, and he has been recommended for the Navy Cross or the Army Distinguished Service Cross.  
Capt. O. K. Leblanc of Abbeville, La., said "shortly after midnight two infantrymen armed with another tommygun and a Garland rifle with plenty of ammunition tumbled into Ross' foxhole. It was cramped with three men and three wounded, so Ross took charge, doing all the firing during the night.  
"As the infantrymen loaded and reloaded the tommyguns and the Garland, Ross kept his head above the foxhole returning the Jap fire. Between firing he kept shouting to the Japs: 'Come out and fight, you yellow —!'  
"I figured Ross fired at least 450 rounds. He killed seven Japs for sure, and probably 10."  
Ross, recovering from effects of the adventure at a base hospital area, had only this to add: "This damned arthritis is giving me hell."  
That's what makes up champions.

Former American Legion

Must Dictate Peace

CLEVELAND, Dec. 4.—(P)—The United Nations must "dictate" the peace, but only after "annihilation of the German, Japanese and Italian governments," in the opinion of Martin V. Coffey of Middletown, Ohio commander of the American Legion.  
Addressing the East Cleveland Legion post last night, he outlined these three steps for "winning the war, winning the peace and making sure our government returns to its normal functions:  
"Treat any stoppage of war work by employer or employee as treason.  
"Dictate the peace only after the annihilation of the German, Japanese and Italian governments, and dictate it in Berlin and Tokyo while those capitals still burn from the fire of our guns and bombs.  
"Sweep aside and banish all theories of government, the freak philosophies and isms that have been brought to our land."

TIRES IN 1944 - MAYBE;

WASHINGTON, Dec. 4.—(P)—Stretch your rubber through 1943 and maybe you'll have tires for the duration—that's the advice of Rep. George Bender (R-Ohio).  
In 1944, he said, it is probable that there will be enough synthetic rubber to take care of civilians as well as the military.

WORK RELIEF LIQUIDATION  
ORDERED BY PRESIDENT AS  
WAR PLANTS PROVIDE JOBS

WASHINGTON, Dec. 4.—(P)—President Roosevelt today ordered complete liquidation of the Work Projects relief program.  
The President, in a letter to Major General Philip B. Fleming, Federal Works administrator, said the WPA rolls had greatly decreased through the "tremendous increase in private employment, assisted by the training and re-employment efforts of its own organization, to a point where a national work relief program is no longer necessary."  
Mr. Roosevelt ordered the closing out of all projects operating in many states by February 1, 1943, and in other states as soon thereafter as feasible.  
Mr. Roosevelt said certain groups of workers still on the relief rolls may have to be given assistance by the states and localities; others would be able to find work on farms or in industry at prevailing rates of pay as private employment continues to increase.  
"Some of the present certified war projects," he added, "may have to be taken over by other units of the Federal Works agency or by other departments of the federal government. State or local projects should be closed out by completing useful units of such projects or by arranging for the sponsors to carry on the work," he said.

New Parity Scale  
To Include Wages  
In Figuring Prices

WASHINGTON, Dec. 4.—(P)—Adoption by the house of a bill to include all farm wages in figuring parity prices brought the comment from President Roosevelt today that the first thing to do was to find out the effect this would have on the cost of living.  
The president had taken a vigorous stand against this revised parity formula at the time anti-inflation legislation was before congress.  
Opponents of the bill contend it would raise the cost of living several billion dollars.  
Government economists have estimated the new formula would raise old parity levels by 10 to 12 percent, and Price Administrator Leon Henderson has contended it would result in a substantial increase in living costs.  
Apparently caught off guard, Henderson's office had no new statement as to whether the legislation passed in a surprise move by the house yesterday would crack retail ceilings on agricultural commodities.  
Senator Wheeler (D-Mont) told newsmen the unanimous house vote "shows that the people have spoken and the administration is getting scared." He predicted speedy senate approval of the measure, against which President Roosevelt expressed "unalterable opposition" last September.  
The house action was viewed by Senator O'Mahoney (D-Wyo) as proving his contention that the farmer was going to face a labor squeeze and that his prices would have to be adjusted so as to keep labor on the farm and prevent a food shortage.

COAST GUARDSMEN  
IN AFRICAN ATTACK

WASHINGTON, Dec. 4.—(P)—United States coast guardsmen who were wounded while guiding troop-filled landing boats through enemy fire onto North African beaches north of Casablanca, Morocco, have been brought back to this country for treatment.  
The navy, making the disclosure today, named only three of the men. The group is at an unidentified east coast port.

Share—the—Meat Program  
Is To Operate Like This

COLUMBUS, Dec. 4.—(P)—Any questions about the government's share-the-meat program?  
Here's a question-and-answer summary prepared by the Regional Office of War Information giving the highlights of the voluntary program:  
Q. What is the "share-the-meat program"?  
A. It is a national campaign to induce the American people to restrict their meat consumption in the interest of the war effort.  
Q. Who is sponsoring this program?  
A. The United States government. It might be added that more agencies of the government are officially behind this campaign than any other civilian war program yet undertaken. These include: Army, Navy, State Department, Lend-Lease Administration, Board of Economic Warfare, War Production Board, Office of Price Administration, and the Department of Agriculture.  
Q. How was the program initiated?  
A. By the government's food requirements committee, which asked the Office of War Information to organize and promote it.  
Q. What is the consumer asked to do?  
A. Each adult is asked to eat no more than 2½ pounds of meat each week; children from 6 to 12 years old, no more than 1½

Attempt To Land Troops  
And Supplies To Bolster  
Guadalcanal Fails

By JOHN H. WIGGINS

WASHINGTON, Dec. 4.—(P)—Smashing another major Japanese effort to bolster their tired and dwindling ranks on Guadalcanal Island, United States warships have destroyed nine more enemy vessels with probably thousands of Nipponese troops.

Two Japanese transports, a cargo ship and six escorting warships were sent to the bottom of the Solomon Islands waters, the Navy reported late yesterday, when the enemy armada blundered into an American naval trap under cover of darkness Monday night.

The attempted landing was completely frustrated, the Navy said. Only a few sailors, rescued from life rafts the following day, reached Guadalcanal as prisoners. The rest, including probably 8,000 to 10,000 troops on the transports, apparently were lost. One American cruiser was sunk in the nocturnal sea battle and "other U. S. Vessels damaged," the commander added. But among the Mikado's sunken warships, the Navy listed four destroyers and two other ships which either were

LONDON, Dec. 4.—(P)—German broadcasts describing hasty Italian preparations to withstand intensified Allied bombing indicated today that Italy expects to have a problem of caring for at least 2,000,000 refugees from areas of heavy attack.  
The Berlin radio broadcast dispatches from Rome telling of housing requisitioning on a large scale, with 800,000 rooms ready and 2,000,000 expected to be provided by the end of next week.

CANADA TO CUT PRICES  
ON COFFEE, TEA, MILK

OTTAWA, Dec. 4.—(P)—In a pre-Christmas gift to ease the strain of the high cost of living on the consumer's purse, the Canadian government is taking direct action to give the nation cheaper coffee, tea, oranges and milk.  
The new assault on the cost of living, to be effected by reducing duties or taxes or by outright subsidies, was announced last night by Finance Minister J. L. Flanagan, who estimated that the cost to the treasury might run up to \$40,000,000 a year.

# THE WAR TODAY

—By DEWITT MACKENZIE—

More Trouble Is Brewing In Solomons, Is Belief, as War News Shifts to Pacific

(This column, conducted as a daily feature by DeWitt MacKenzie, is written today by Glenn Babb. Mr. MacKenzie, now touring the Middle East war zone is expected to resume shortly).

The spotlight of the war may be shifting back to the southwest Pacific. Today's dispatches indicate that we probably will get our next news of major victory from the bloody beaches of New Guinea. And there seems to be new trouble brewing in the Solomons; at least Tokyo is on the air today with an unsubstantiated report of a successful Japanese naval raid on our forces there.

For the past month, except for the brilliant mid-November interlude of the naval battle off Guadalcanal, attention has been focused on North Africa and Russia.

General Montgomery apparently is almost ready to assault Rommel's new line at El Agheila, but the German is reported to have gathered together some 60,000 men and 200 or 300 tanks to defend the narrow gateway into Tripolitania. General Eisenhower and Anderson likewise are up against a wily, stubborn defense at the other flank of the Axis' contracting African foothold.

The first impetus of the Russian offensives before Stalingrad and west of Moscow has largely spent itself. The Germans continue to yield ground west of the Volga City but more slowly, and while their position there remains one of extreme peril they may be able to hang on for weeks of exhausting, costly fighting for both sides.

But down on New Guinea General MacArthur's Australian-American jungle fighters seem to have brought their surge back from Port Moresby close to its triumphant end. A naval convoy which may have represented the last hopes of the Japanese for escape, reinforcement or supply has just been driven off. The few thousands left on the beach, still fighting frantically, probably no longer have a choice between a Dunkerque or a Corregidor.

It is too early to say what may have happened in the channel between Guadalcanal and Tulagi in the Solomons on Monday night. The Japanese have rushed to the microphone to broadcast their version. In previous instances what Tokyo presented as Japanese victories turned out for the most part to be disastrous defeats.

## CORN THIEVES ARE FINED AND JAILED

Draw \$25 and Costs and 30 Days in Prison

Pleading guilty to charges of stealing corn from Malcolm Dorn, when arraigned before Justice W. W. DeWees, Thursday afternoon, Joseph Costney and Orville Johnson, residing on the Dorn farm the past three weeks, but who had lived at Alma, in Ross County, were fined \$25 and costs and given 30 days in the county jail.

Justice DeWees informed them that if they paid their fines they would be released Christmas eve.

The two men had stolen three auto loads of corn, valued at around \$18, and disposed of it in grain elevators in this city.

They were taken into custody by Deputy Sheriffs Otto Reno and Maynard Icenhauer.

# CONSECRATION SERVICE FOR ARMED FORCES

Public Invited To Attend Special Services by Young People

Sunday night at 8:15, the Youth Fellowship, of Grace Methodist Church will hold a candle light consecration service for all men in the armed forces, on the eve of the first anniversary of the Jap attack of Pearl Harbor.

Miss Barbara Parker, president of the Youth Fellowship, will preside, and in addition to the congregations of the other churches being invited, the public generally is invited to attend. Young people of the other churches are asked to sing in the choir during the services.

Rev. George B. Parkin, pastor of the church, will speak on a chaplain's work in the armed forces.

Miss Joan Wilson will give a tribute to the boys in the military service.

The Girl's Triple Trio, of the Washington C. H. High School, with Mrs. Paul Fitzwater in charge, will give special selections as part of the services.

Donald Riber will be at the organ during the evening.

## NAME LIBERTY SHIP AFTER DAN WILLARD

Former B. & O. President Is Honored

The 75th Liberty Ship launched at the Bethlehem-Fairfield Shipyard at Baltimore, Md., has been named after Daniel Willard, president of the B. & O. Railroad for more than 21 years, who died July 6.

Sponsor of the "Daniel Willard" was 14-year-old Mary Belle Willard, only granddaughter of Mr. Willard.

The ship was built in less than one month and is a 10,500-ton cargo vessel.

The B. & O. Railroad has hauled sections of the ships from the prefabricating ship to the building ways, dozens of carloads of ship parts being moved from ship to ways by railroad each day.

All garages and other service stations have been kept busy early and late since the near-zero temperature struck Wednesday.

The severe cold wave sent great numbers of motorists hurrying to have additional anti-freeze placed in radiators, change to lighter oil and grease, and other attention to their cars necessitated by the cold weather.

In dozens of instances it was necessary to thaw out frozen radiators.

OVERHEATED FURNACE STARTS FIRE IN HOME

An overheated furnace at the home of T. D. Chaney, 910 Leesburg Avenue, at 9:30 Friday morning, resulted in some damage to the flooring over the furnace, but firemen, reaching the scene before the flames had caused extensive damage, made quick work of extinguishing the fire.

Timber too near a furnace pipe had ignited and started the blaze.

## O. M. RIEGEL IS GIVEN RELEASE

Goes to Patterson Field To Enter Engineers Training School

O. M. Riegel, coordinator for vocational training in auto mechanics, aeronautics and machine shop, of the Washington C. H. High School, has been released to take up work with the War Department at Patterson Field in the Engineers' Training School, for aviation mechanics.

He will take up his new work at once, but expects to retain his residence in this city.

It was stated by Supt. A. B. Murray that Riegel's post here will not be filled until ample time is given to obtain a suitable instructor to head the department.

It is with deep regret that the school officials as well as students see Riegel leave his position here, which he has so capably filled the past seven years.

At a little farewell party given by the faculty, Thursday evening he was presented with a gift by the faculty members.

NEW YORK, Dec. 4.—(AP)—A Tokyo broadcast disclosed today that Major General George M. Parker and Edward P. King, Jr., who commanded United States forces in the Philippines under Lieut. Gen. Jonathan M. Wainwright, are in the same Formosa prison camp as their chief.

# VICTORY CORPS GETS ITS START IN HIGH SCHOOL

Students Are Enthusiastic as Application Forms Handed Out at Special Chapel

First steps toward the formation of a High School Victory Corps in the Washington C. H. High School were taken at a chapel session called especially for that purpose Friday morning.

Paul E. Fitzwater, the WHS bandmaster and city school music supervisor, took charge of the meeting and explained to the students the purposes of the corps and the part they would be expected to take in its program as members.

Application blanks were passed out and approximately 50 of them were brought back with the signatures of the parents, at the afternoon session.

Membership in the corps, a comparatively new feature of the war effort for the country's youth on a nationwide scale is opened to both boys and girls. However they must be able to meet certain scholastic requirements.

All of the applications will be passed on by the guidance committee, composed of Miss Marjorie Evans, Miss Zelma Seyler, Miss Helen King, Joseph Horst and Principal W. F. Rettig.

The deadline for the return of the applications has been set for Monday. When they are all in, the guidance committee will pass on the eligibility of each and then assignments will be made to one of the five branches—Production Service, Community Service, Land Service, Air Service and Sea Service. It was made plain, however, that the assignments would be made in accordance with the selections of the students themselves. And it was also pointed out that students could remain in the general membership classification indefinitely or until they make their choice.

Members of the advisory committee—Robert Minshall, Condon Campbell, Howard S. Harper, Walter Patton, Maynard Craig and R. Burris Tharp—who attended the Friday morning meeting said the students were "unusually enthusiastic" and expressed gratification of the reception of the proposal.

# HEALTH BOARD HOLDS MEETING

Applications for Health Commissioner Are Given Consideration

At a meeting of the Fayette County Health Board, held Thursday, afternoon, a number of applications for Fayette County Health Commissioner to succeed Dr. James F. Wilson, resigned, were considered, but no definite action was taken.

The board spent sometime discussing the question of naming a health commissioner, as well as salary to be paid, and whether it should be a full time or part time commissioner.

It was stated that a number of good physicians had applied for the post.

Indications are that some decision will be reached at an early meeting of the board, to be held within the next week or two.

# BOY FROM HERE IN 'WHO'S WHO' AMONG SCHOOLS

Kenneth Shoemaker Is One Of Outstanding Students

Kenneth Shoemaker, son of Mr. and Mrs. C. R. Shoemaker, of the Greenfield Road one mile south of Washington C. H., who is taking a liberal arts course and will be graduated next May with B. S. degree in physical education at Ohio Northern University, is among students who will be listed in the 1942-43 issue of "Who's Who Among Students in American Universities and Colleges."

Shoemaker is a member of the Sigma Phi Epsilon fraternity of which he is vice-president, he is treasurer of his Senior Class; has received varsity awards in football, basketball and track and is a member of the varsity "N" Association.

He graduated from Washington C. H. High School in the class of 1939 and was a member of the football team, vice president of the Hi-Y organization and held high scholastic honors.

He is one of 19 students of Ohio Northern University whose name will appear in the "Who's Who," which will be off the press in January or February.

This publication is published through the cooperation of over 600 American universities and colleges. It is the only means of national recognition for graduates which is devoid of politics, fees, and dues. Several students from accredited colleges are selected each year, by an unprejudiced committee, for their biographies to appear in Who's Who Among Students in American Universities and Colleges. These books are placed in the hands of hundreds of companies and others who annually recruit outstanding students for employment.

The purpose of Who's Who is to serve as an incentive for students to get the most out of their college careers; as a means of compensation to students for what they have already done; as a recommendation to the business world; and as a standard of measurement for students.

## SHARE-THE-MEAT PROGRAM IS TO OPERATE LIKE THIS; QUESTIONS AND ANSWERS

(Continued from Page One)

pounds, and children under six years old, no more than 3/4 pound.

Q. I read recently that this year was one of record meat production. Why, then, should we be asked to eat less meat?

A. That is right. This year will set a record for meat output. Farmers are producing 15 percent more meat this year than they did last. But the year is one of record demand.

Q. Will you explain this increased demand?

A. This is caused by three factors: (1) Requirements of our armed forces. (2) Requirements of our fighting Allies through our lend-lease administration, and (3) increased purchasing power of the American people, and hence their increased ability to buy and consume meat.

Q. Didn't our military men eat meat just the same when they were in civilian life?

A. Certainly, but they did not eat as much, on the average. Civilian meat consumption somewhat depended upon civilian incomes. For example, in 1936, families with incomes of less than \$500 a year consumed about 70 pounds of meat per person per year, which is less than 1.4 pounds per week, while families with incomes of \$5000 a year and up, consumed 260 pounds per person. Moreover, the military life demands heavier-than-normal meat consumption to maintain a maximum of bodily health and vigor.

Q. Isn't this voluntary ration a pretty drastic cut?

A. No. During the last 10 years, our capita consumption has ranged from 125 pounds a year to 260 pounds, depending upon consumer purchasing power.

Q. How did the government arrive at the figure 2 1/2 pounds a week?

A. Best estimates place the year's meat production at slightly more than 24 billion pounds. Calculating the increased civilian consumption due to swollen purchasing power, it is estimated that we will consume 21 billion pounds here at home, if allowed to buy all we want. It is estimated that our military and lend-lease requirements will be about 6 1/2 billion pounds. There we have 27 1/2 billion pounds required, and 24 billion pounds of supplies, which spells a shortage of about 3 1/2 billion pounds. That 3 1/2 billion shortage must come out of the 21 billion civilians are demanding, thus cutting civilian supply to 17 1/2 billion pounds. This shrinks 10 percent before it takes the form of retail cuts, hence the retail supply will be about 15 1/2 billion pounds. Divide this among 128 million people not in the armed forces, and make allowance for infants, children, the aged and invalids, and the ration as stated is the result.

Q. Is this situation as our

present supply and demand responsible for the shortage of many kinds of meat, which we are now experiencing?

A. It is. We now have a situation where there is less choice, less meat, and great inconvenience in purchasing. Our military establishments and the lend-lease are making their huge purchases right now.

Q. Why is it that some cuts and certain kinds of meat, like beef, are scarcer than others?

A. Because war-employed people with more money are demanding the better cuts and the more popular meats. Furthermore, the supply has been restricted by the Office of Price Administration since October 1.

Q. How was that done?

A. On September 15, the War Production Board delegated to the OPA the authority to ration meat. It also gave OPA authority to control the distribution. On October 1, the OPA issued an order restricting the deliveries of the packers and slaughterers during the last quarter of this year to certain percentages of their deliveries last year during the corresponding three months. These restrictions were made to insure military and lend-lease supply.

Q. What were those restrictions?

A. The packers and slaughterers, the smaller ones producing 500,000 pounds or less a quarter were restricted to the same volume of business they did last year in the same quarter. The larger packers' deliveries were restricted as follows: Beef, 80 percent; pork, 75 percent; lamb and mutton, 95 percent; veal, 100 percent. On November 9, the beef deliveries were cut 10 percent more to 70 percent.

Q. Are all kinds of meat counted in the suggested voluntary ration?

A. No. Poultry and fish are not included. Nor are cuts like tongue, liver, hearts, kidneys, knuckles and ox-joints and tails, and the so-called variety meats.

Q. Why are they not included?

A. Yes, but they are not considered adaptable for packing and shipping for military use, and the demand for them is comparatively low.

Q. Is this restriction on our meat eating going to be a severe hardship?

A. Actually, it will not. If the family diet is carefully selected, we shall have enough meat to insure good health and physical energy. In fact, we'll still be eating much more meat than the people of our Allied nations.

Q. What is the meat situation in other countries?

A. In Holland, the meat ration is 9 ounces per person; in Belgium, 5 ounces; in Germany, 12 1/2 ounces; in Italy, 3 1/2 to 4 1/2 ounces per week. In Britain, the ration is one pound per week, plus 2 ounces of bacon and whatever canned meat can be bought, if it is available. Moreover, the so-called fresh variety cuts are scarce or almost unobtainable, and the war has depleted the British fish supply. We still fare better as to our civilian meat supply than the people of any other nation across the ocean.

Q. How will the share-the-meat program affect restaurants and public eating places?

A. There are certain recommendations for its application

restaurants Public eating establishments should make half-portions available at reduced prices. Their menu cards should solicit co-operation. They should use cards and stickers and flyers to advise people of the raw-meat weight of their portions, reduce the number of meat dishes, and emphasize meatless dishes, or dishes of limited meat content, and serve more poultry, variety meats, fish and meat alternates like cheese and beans.

Q. Does the meat you eat in a restaurant count against your 2 1-2 pounds?

A. Yes, you are supposed to deduct it.

Q. If OPA has the authority to ration meat, why is this not being done?

A. OPA has announced that meat will be rationed, probably sometime in February. However, this requires many weeks of preparation, and it cannot be done now. The meat shortage, however, is so serious, that the government asks all citizens to support the share-the-meat program until rationing can be inaugurated.

**A REAL PROBLEM**  
In the entire war effort the most difficult and controversial issue now facing the government and the people is the effective mobilization of civilian manpower and womanpower. On the executive side at Washington it seems to be the belief that compulsory "selective service" for civilians will have to come—pretty much as it came, in England. At this time, majority opinion in congress ranges from opposition to lack of conviction.  
Whether or not a compulsory program is eventually adopted, a valid reason for opposition now is the fact that we are not utilizing the present labor supply with the realism demanded under war conditions. In England the average work week is 55 to 60 hours, and any plant which drops below a minimum standard of 52 hours invites official censure and action. Here, according to latest government figures, the average work week in durable goods industries is 45.2 hours, and in non-durable goods industries it is 39.9 hours. In some industries, for instance wearing apparel and coal mining, it is less than 36 hours.  
The 40-hour week law, with time and one-half for overtime, was adopted at a time of depression in employment, with the avowed object of spreading work and increasing purchasing power.  
Within the New Deal and the labor unions, the sponsors and advocates of this law continue to assert that it is not a bar to longer hours of work. All that need be done, they say, is for employers to pay the overtime and labor then will work longer hours. The argument is specious. If this law is not responsible for the present average of only 39.9 hours in non-durable goods industries, what is?  
The essential point is this: Raising the standard work week from 40 to 48 hours would increase output of a given labor force by 20 percent or, maintaining previous output would free 20 percent of the workers for essential jobs. Until the government cuts out some of the waste in the present utilization of our manpower and womanpower—the biggest wastage being represented by short hours and by a large percentage of some 5,000,000 civilian jobs on governmental payrolls—the advocates of compulsory national service for civilians are going to be on very weak ground.

**THERE'S A DIFFERENCE**  
Freezing labor in highly-paid industries is a far different story than freezing low-paid labor on the farm. John Brandt, president of the National Cooperative Milk Producers' Federation, points out that "farm labor frozen into its job would soon be taking advantage of the situation. Men forced to stay in farm jobs at fixed wages,

## Washington at a Glance

By Charles P. Stewart

WASHINGTON—Too much censorship is bad wartime policy. At any rate, that's the idea that the Washington newspaper corps is trying to rub into the government. It isn't that our Yankee press is muzzled overnight. It publishes about what ever it pleases, if able to get it. Officialdom may refrain from telling our local scribes all that they would like to know, but if it leaks, there is no method of preventing them from broadcasting it.  
The foreign correspondents are chaps who feel the pinch.  
Many is the good yarn they get that the censor's office won't allow the cable companies to transmit for them, to their various home countries.  
Being right here, in domestic journalism's midst, they naturally holler to their native colleagues, and the latter aren't sympathetic. Their theory is that there are certain classes of information that ought to be kept hushed up, but that there are other kinds which simply are favorable advertising.  
Furthermore it's contended that excessive secrecy makes folk suspicious. They are everlastingly afraid that BAD news is being suppressed from them.  
The other day, too, military headquarters fed out the suggestion that reporters should not guess, in advance, relative to desirabilities of prospective operations. The critics' answer is that the news boys obviously think faster than the profession-

"If American farmers are going to be able to produce enough food to win this war, it is time Washington took a realistic attitude toward agriculture and adopted a program that will be practical, workable and really helpful to the farm men and women who ask for only two things: the same consideration that labor receives; and an opportunity to help win this war by cessation of bureaucratic theorizing, regimentation and interference."

It's funny how one thing works against another. Reducing the automobile speed limit to 35 miles an hour will save gasoline and rubber but it will certainly cut down the supply of scrap metal, too.

**Cause of Tuberculosis Found When Koch Proved It a Germ**  
By LOGAN CLENDENING, M. D.

SIXTY YEARS ago on March 24, 1882, a dumpy, countenanced doctor named Robert Koch stood up before the Berlin Physiological Society and read a paper in which he proved that a certain germ was the cause of tuberculosis.  
Since then we have not had to guess the cause of this universal disease or ascribe it to vague forces such as heredity or miasma. We know the cause to be a germ; we know the habits of the germ; we know what it grows on; we know how it passes from one human to another and from infected cows to human beings in milk, and all of its customs and habits.

Furthermore, since then, we are able to tell by examination of the sputum of an individual whether or not his cough and fever are due to tuberculosis of the lungs or to some other disease. Robert Koch laid groundwork about tuberculosis forever in his grave.  
His discovery was the result of a great deal of industry combined with flashes of genius—inspiration in interpreting the new things he saw under the microscope and in inventing new methods of research.

The most important of these methods was the discovery that bacteria would grow outside the body on culture media—a complete laboratory now. He accidentally discovered colonies of bacteria growing on the cut surface of a potato and for a long time he used foods—sugars, etc.—to cultivate his germs.  
Cultivation of Germs  
When he started out to cultivate the germs he found in tuberculous tissue, however, he struck a snag. They would not grow on any of the ordinary media. Finally he had the inspiration of trying them on human tissue, using blood serum. He inoculated a tube of sterile blood serum with tissue which he had obtained from a case of tuberculosis and crushed it so as to expose the germs.  
Patiently, from day to day, he examined the serum under the microscope but for a week or 10 days he found no germs. Most of

his germs grew on media in from 24 hours to three or four days. He was about to throw his blood serum away, but fortunately he was patient enough to keep looking and finally at the end of two weeks he saw a colony of tubercle bacilli. The tuberculosis germ is one of the slowest growing of any that attack man.

**Four Famous Postulates**  
Koch's paper of 1882 did far more, however, than simply announce the cause of tuberculosis. He laid down the four famous postulates to determine whether a given germ is the cause of a given disease:  
First: You must find the germ in association with the disease and it must be found in association with no other disease.  
Second: You must be able to cultivate the germ outside the body on artificial media.  
Third: You must be able to take the isolated germs and produce the disease in animals.  
Fourth: Pure cultures of the organisms must again be made from inoculated animals.

Since that day 60 years ago we have been able to initiate intelligently all the hygienic measures which have cut the rate of tuberculosis to a point that Koch himself would have regarded as unbelievably small. In order to further this work, buy Christmas Seals.

**QUESTIONS AND ANSWERS**  
A. B.—You say that glands cause the bearded lady's beard. I have an enlarged thyroid gland and an alarming number of hairs on my face for which I have considered the electric needle. Which do you advise, the electric needle or thyroid extract, if given under a doctor's care?

Answer: The thyroid gland is very little concerned with hair growth in women. The adrenal gland is responsible for that. Under the circumstances, in order to be sure, I would advise the use of the electric needle.

## Embattled Love

BY LORENA CARLETON  
WRITTEN FOR AND RELEASED BY CENTRAL PRESS ASSOCIATION

A chance meeting in a... for leads to a spur-of-the-moment marriage in Reno by... PAIGE SHELTON, whose sweetheart has just been killed fighting for the Allies, and... RESTWICK (RUSTY) CARNES III, wealthy descendant of early Hawaiian settlers. Rusty marries to spite the girl he thinks he loves.  
EUGENIA NORTH, his selfish fiancée.  
YESTERDAY: A few minutes before she leaves the hotel to go to the ship that will carry her and Rusty to Hawaii, Paige receives a pair of orchids.

Rusty's arm was about her, an ecstatic smile spread over his face.

"Thank heaven you're here. But hey, what goes on?" one asked. "Even with a wig that's not Eugenia North."

His companion, leaning against the door of Suite 12, snapped to an upright position. "Paige Shelton!" he said, his surprise so intense that it emerged as a hoarse whisper.

"Hello, Gabe," she answered with perfect composure. But her gray-gloved hand blended with his in a grasp too strong. "How nice to see you again."

Parrot like he echoed, "Nice to see you again."  
Rusty's manner was disconcerted, but he made no comment other than, "Come on in, boys." He held open the heavy door for his wife and the two photographers, who sidled in to protect their picture-making equipment. Rusty twisted the lock to assure privacy while they posed.

For the first shot he and Paige leaned against the rail of the lanai—their own section of private deck. Rusty's arm was about her, an ecstatic smile spread over his face showing regular, very white teeth. The orchids, silhouetted, would show up well, mused Paige, and smiled also. Next, the bamboo chaise lounges were moved almost adjacent so Paige and Rusty could stretch their arms and clasp hands in an idle, romantic fashion. Restwick Carnes gave his wife, not a smile this time, but a look of such adoration that Gabe's companion yelled, "Zowie! You should be an actor."

As if he wasn't, thought Paige. They posed a third time with Hilo Hazel, the blond cocker. Rusty's face was hugging his wife's, lips so near they almost kissed her cheek. Hilo Hazel really kissed the girl, just as the shutter clicked.

Gabe spoke for the first time since his greeting. "That'll get 'em!"  
When they finished the third shot Restwick sprinted over to open the door in response to the knocking that had started as a tapping, and now, with the co-operation of more and more guests, had grown into a banging. People catapulted in. A dozen and a half or more. The bedroom and the lanai were soon jammed. Rusty made rapid introductions, names all different, that Paige knew she never would remember. Yes, the names were different, but the facial expressions were the same. Blank astonishment, accompanied by outrageous gasps. However, they soon forgot their devouring curiosity—at least until they could get off the ship—to surge about Rusty, who was getting ready to pour the champagne.

After three years of intensive warfare the British still smile. Here is one sample of war-time whimsy at its best—the legend of mysterious mischief-makers of the RAF, as told by RAF pilots on furlough in New York.

(Wide World News Service)  
Not once upon a time, but now, there lives in England a gnomish band of fairies known as gremlins.  
The gremlins are air-minded little folk, and they have an attachment for the Royal Air Force. They stow away on RAF planes, laugh and dance upon the wing struts, and cause the pilots all kinds of trouble.  
Where they came from and what they look like, only the RAF knows for sure. And the pilots fear to tell too much about the gremlins, for if they do the little rascals may get angry and jam their gun turrets, put their motors out of commission, or fog their windshields.  
Little by little, however, the truth about the gremlins has come out. Before they joined the RAF, many had been Irish pixies who had grown tired of dancing on the flowers and preferred to sing and play jokes above the clouds. They stand about a foot high in their stocking feet, have ruddy little faces and a roguish twinkle in their eyes.

## Gremlins Have More Fun Than Anybody

When any RAF plane suffers minor mishaps, the gremlins are almost sure to get the blame. Sometimes they drink the gasoline, and force pilots to make abrupt landings. Sometimes they cover wings with ice and chuckle heartily among themselves as the pilot fumes and grows angrier and angrier. Often they pull at the pilot's trousers and tell him solemnly that he is flying upside down. Then they laugh and make faces at him when he turns the plane over and suddenly realizes he had been flying right all the time.  
On some days, just for adventure, the gremlins stay on the ground. When a pilot tries to land, the runway seems to move. He tries another landing, but the runway moves again. The gremlins have been playing a joke on him.  
For a while, some men in the RAF were sure the gremlins were enemies in disguise. But one day a pilot had a fight with an Axis plane. While it was going on the gremlins sat by, awed and quiet. When the pilot won the fight and chased the enemy away, the gremlins danced up and down, thumbing their noses at the fleeing plane. And even though the gremlins are annoying at times, RAF men did not like to doubt their loyalty after that.

A detachment of gremlins has recently gone over to the American Air Force in England, and they are just as impish with American fliers as with the RAF. But they have not crossed the oceans, and RAF pilots in New Zealand and Canada have never seen them. These pilots wish they did have gremlins, for then the pilots would be able to accuse the gremlins of many things for which the pilots now must take the blame.

It has been estimated that grade crossing accidents cause American railroad trains to lose an average of 660 hours a month.

## Christmas Party For Ladies of Country Club

The Washington Country Club was the scene of a beautiful Christmas party, Thursday, when a group of charming hostesses entertained an exceptionally pleasurable luncheon-bridge. Mrs. Otis Morrow was chairman of the hostesses, also including Mrs. Hoy O. Simons, Mrs. Glenn Rodgers and Mrs. F. E. Hill.

In welcome contrast to the cold of the outdoors, the club lounge and dining room were delightfully warm, big logs burning cheerily in the open fireplaces, and an effective Christmas color scheme carried out in red candles, sending up points of flame, and typical Yuletide suggestions. In an alcove was a pretty Christmas tree, and over the mantels were effective scenes showing Santa Claus and his reindeer.

For the serving of a bountiful luncheon of particularly appetizing viands, the guests were seated at two long tables and several small round ones.

The centerpiece were appropriate and pretty, with arrangements of cedar showered with radiant colored Christmas balls. The tally placecards were red Christmas motifs, with the tables forming a bright Christmas picture.

The congenial luncheon hour was enjoyed by fifty club women and followed by the usual progressive game of contract bridge. Table prizes of cranberry jelly were pretty in their wrappings of red and green, and a traveling prize was awarded to Mrs. Joseph Cokerly.

The hostesses gave an amount of skilled management to the party, which was warmly appreciated by the club members. Guests with the members were Mrs. Robert Palmer, of Ashland, Ky., Mrs. J. Madison Willis, of Bloomingburg and Mrs. John Babbitt.

## Mrs. Gidding Is Hostess to Dinner Party

The two-table Tuesday luncheon-bridge club was indebted to Mrs. J. Earl Gidding for a delightful session, Thursday evening, when she entertained them at her handsome home for dinner and a game of pivot contract.

The charming hostess seated her guests at a beautifully appointed table, centered with a beautiful decoration of crystal flowers and leaves. The dinner courses were unusual and perfectly prepared, and the hour was exceptionally happy.

The gracious hostess arranged the card tables in the living and music rooms of the home, where congenial visiting interspersed the enthusiasm of the bridge game. High scores were presented to Mrs. Paul Strevey and Mrs. Harold Craig.

Mrs. J. Roush Burton and Mrs. Selby Gerstner were guests with the members.

## Mrs. Hartman Is Guest with Club Members

Mrs. Carroll Halliday entertained her bridge club Thursday evening for a delightful session including Mrs. Robert E. Hartman as a guest with club members. The evening's bridge game was gaily contested and at its close attractive high score trophies were presented to Mrs. Hartman and Mrs. Leonard Korn.

For the serving of a particularly delicious collation, the small tables were centered with dainty vases of vari-colored mums.

### Alpha Circle

Alpha Circle met with Mrs. Harold Biehn as hostess and Mrs. Paul Van Voorhis, the assistant hostess.

In the absence of Mrs. Charles Reinke, president, Mrs. Van Voorhis presided over the business meeting during which plans were made for a Christmas party for the children.

It was also moved and seconded to buy a bond out of the treasury. Mrs. Van Voorhis gave a very interesting paper on "Behavior Training". She mentioned sleeping habits and explained the number of hours children of different ages should sleep, also room conditions, habits of elimination and thumb sucking were also interesting points in the paper. A discussion by the members followed.

During the social hour refreshments were served by the hostesses.

## Combined Meet Of Good Hope WCTU - WSCS

Mrs. Robert Rodgers hospitably opened her country home Thursday for a combined all-day meeting of the Good Hope WCTU and the WSCS.

The affair was most enjoyable, with Mrs. Rodgers graciously extending cordial hospitalities to her guests, and providing many comforts and delights.

The fourteen ladies enjoyed the covered dish luncheon held at the noon hour, and were seated at the dining table where a huge and beautiful African violet was the centerpiece.

Business meetings were conducted by the presidents, Mrs. Ollie Yeoman, of the WCTU and Mrs. Mary McCoy, of the WSCS, with the ladies lingering until a late hour in congenial visitation.

## Mrs. Jackson Opens Home to Woman's Guild

Mrs. Frank S. Jackson graciously opened her spacious home to the meeting of the Woman's Guild of the First Presbyterian Church on Wednesday afternoon for a particularly delightful session.

Chairs were comfortably arranged throughout the handsome rooms with genial and gay little groups enjoying informal visiting during the first part of the afternoon.

Mrs. Helen Elliott, the president, brought the meeting to order and Miss Emma Jackson, devotional leader, read the second chapter of Luke and a very beautiful and impressive Christmas story.

Yuletide notes were featured in the plate course at the close of the afternoon, with the molded salads and colorful open sandwiches and hard candies featuring Christmas spirit.

Assisting hostesses were: Mesdames A. B. Murray, Wm. Smith, E. A. Ellies, Rell Allen, Zella Patton, Nolan Hathaway, Arthur Leonard, Vernon Squires, W. B. Hershey, Arthur Burgett, R. Giebelhouse, T. Worthington, C. M. McDowell, Wilma Hastings, Carman Coil, Charles Reid, V. Hoppes, C. A. Briggs, Charles Gage, James McCool, Lena Cook, Misses Mary Pinkerton, Grace McHenry, Etta McHenry and Mrs. G. Blakeley.

## Gay Supper-Shower Honors Mrs. R. Steen

Miss Bee Knapp entertained at her home Thursday evening with a very delightful and informal supper party and handkerchief shower in honor of Mrs. Richard Steen who leaves soon for Illinois.

The shower was a complete surprise to the honor guest, who found her place at the dining table heaped with attractively wrapped gifts of lovely handkerchiefs for which she responded most graciously. The delicious supper was followed by an evening of visiting affording the guests, who were close friends, an opportunity of a prolonged visit with the popular member of their coterie whose departure will bring much regret among them.

Included in the delightful and informal hospitalities of the evening were Mrs. Thomas Christopher, Mrs. Charles Dunton, Mrs. Paul Pennington, Mrs. Jimmy Ireland, Mrs. Larry DuPree, Mrs. Eldon Lightfoot and Miss Rosemary Burgett.

## Stars in 'Seven Days Leave'

And it's a game and song hits, torrid dancing, fast romantic action and fun—otherwise RKO Radio's "Seven Days Leave," starring Victor Mature and Lucille Ball. The list of featured radio favorites and new personalities stretches from here to breakfast and is much too long to give, while on the screen it seems much too short, just as always when you're enjoying yourself so tremendously. "Seven Days Leave" comes to the Fayette Sunday and Monday.

## Luncheon Party Of Matrons Class Ushers in Season

Members of the Matrons Class of the Bloomingburg Presbyterian Church were indebted to Mrs. William Swope Thursday for a beautiful one o'clock luncheon and an interesting afternoon meeting. The other outgoing officers, who are Mrs. John Glenn, Mrs. Ray Larimer, Mrs. Raymond Scott and Miss Laura Morris assisted Mrs. Swope in the delightful hospitalities, welcoming a splendid attendance of class members.

The spaciousness of the beautiful home lent itself perfectly to the effective Christmas decorations of the holiday season and was a cheery background for the afternoon's pleasures.

For the delicious two course luncheon the guests were seated at one large and two small tables which presented a picture of Yuletide beauty with lace cloths and centered with bright green home grown holly extending down the center of the table, and flanked at either end with red candles. Miniature Santa Claus and reindeer were placed among the holly, effectively making a real Christmas scene much admired by the guests.

After the luncheon, the meeting was called to order by the president, Mrs. John Glenn, who read scripture and prayer. A short business session followed in which the Christmas work was planned and the election of officers held. This resulted in Mrs. John Glenn, president, Mrs. Robert Allemang, vice president, Mrs. William Swope, secretary, Mrs. Jean Brown, assistant secretary and Mrs. Raymond Scott, treasurer. The meeting closed with a Christmas Bible study.

During the social hour an exchange of gifts provoked much holiday spirit. Included with the members were two guests, Mrs. Anna Larimer and Miss Olive Swope.

### Men's Party

The Washington Country Club staged one of the jolliest Men's suppers of the year Thursday night, when Mr. J. J. Kelley, Mr. Emmett Passmore, Mr. L. P. Fedigan and Mr. John Shepard were stimulating hosts. Over seventy men were assembled and everyone was enthusiastic over the excellent dinner and the good time following.

Mrs. Hazel Devins had the dinner in charge, serving a perfectly prepared meal, satisfying the masculine appetite on a cold night.

Christmas decorations, featuring cedar and snow scenes added to the attractiveness of the party.

The merry dinner hour was followed by the usual evening of cards.

## Miss Melvin Includes One Guest with Club

Including Miss Adah Rechenbach as a guest with the members, Miss Marie Melvin complimented her bridge club with a most pleasurable session on Thursday evening.

Taking her guests to the Rainbow Room, a two-course dinner of excellently prepared viands was thoroughly enjoyed, with the hour an exceptionally happy one.

The gracious hostess took her guests to her home where the enthusiastic and gay bridge game progressed, at the close of which high scores were held by Miss Frances White and Mrs. L. D. Deafner.

# SERVICE FLAG FOR WHS NOW BEING MADE UP

## It's Senior Class Project And Relatives Asked To Send Servicemen's Names

A service flag with a star on it for every former student of Washington C. H. High School who is now in any branch of the armed forces is being made at the present time at WHS, the project of the senior class.

The idea of the flag, which has been started in many high schools, was brought up by Karl J. Kay, senior advisor, and he now has charge of the arrangements.

The flag is being made by Mrs. Lewis Overturf, home economics instructor, and some students.

The class president, David Ellies, has appointed Martha Looker flag secretary and she is, at the present time, receiving names of former students to place in a file. Stars will be placed on the flag for each former student now in the armed forces.

Any parents, relatives or friends are being asked to send in the names of servicemen with the year they were graduated from WHS and the branch of the service in which they are now serving.

Gold stars will be placed on the flag for boys now dead.

## -Spying- On Sports

By Hugh Fullerton, Jr.

NEW YORK, Dec. 4.—(AP)—You can put whatever value you want on Berlin radio announcements but the folks who have been hollering that we ought to give up sports because of the current shortages of players, transportation and equipment may be interested in a recent item snatched from the airwaves. . . . The Berlin announcer reported that no fewer than six international sports events are scheduled in Europe next Sunday. . . . We pick the Italians to take the boxing meet. They've been getting plenty of roadwork in Libya.

A copy boy on an Indianapolis newspaper won the office football pool a few weeks ago by picking Iowa to beat Wisconsin. . . . One of the losers couldn't understand. "Didn't you know Wisconsin was undefeated and had tied Notre Dame?" he asked. . . . "Sure," replied the kid, "but those Seahawks are tough."

Bohman, Jr., who played on the Cornell football team that won and lost that famous "fifth down" game against Dartmouth two years ago, tells pals at Mather Field, Calif.: "They'll never revoke any scores I hang up in this contest. I'm playing this war for keeps."

After a long tussle with the AP poll on football "trend" this department is convinced that the season's outstanding trend is the one you can't take to the bowl games.

## Vols' Record For 5 Years Is Something

By ORLO ROBERTSON

NEW YORK, Dec. 4.—(AP)—Want to know why Tennessee's Volunteers will be appearing in their fourth bowl game in five years when they clash with unbeaten Tulsa in the Sugar Bowl at New Orleans on New Year's Day? Then take a look at their record for the last five seasons. Since 1938, the Southerners have chalked up 47 victories, been defeated only five times and tied once for the remarkable percentage of .904. Not only that, but a compilation of the scoring records of the nation's leading colleges for the five-year period by the Associated Press shows the Vols in front both offensively and defensively. They have rolled up 1,264 points while holding their opponents to 203, an average of less than four points per game. In winning eight, losing one and tying another this season, the Vols vaulted over Duke's Blue Devils in the five year percentage column. Duke, with an indifferent season, dropped to fourth place.

### OWU Captain Named

## Minor League Shuffle Leaves 'Em All Gasping

By JUDSON BAILEY

CHICAGO, Dec. 4.—(AP)—The minor leagues took baseball's winter show away from the majors today and the choicest topic of conversation was not the business facing the convention but the startling switch of Southern Association presidents which brought Billy Evans back into baseball.

It was the most dramatic story in many years of minor league meetings. And it came about because a train was late.

All day yesterday Evans, former general manager of the Cleveland Indians and Boston Red Sox,

and for 22 years an American League umpire, was just another famous job hunter among the milling mob of baseball men in the lobby of the Palmer House.

Trammell Scott still was the president of his league and no one suspected a change—least of all Evans.

Scott had left Atlanta on a train due here at 1:30 P. M. and intended to preside over the Southern meeting at 4 P. M. But when his club owners convened, Scott had not been heard from and some of the members, disgruntled for various reasons over past incidents, recalled seeing

Evans on the scene for several days. They knew he was at liberty.

For two hours the owners argued. Then Paul Florence of Birmingham was sent out to find Evans and an hour later he was installed as the new president.

His first function was to attend a dinner meeting of the presidents of all the minor leagues and while this was under way Scott arrived, rushed directly to the dinner and took a seat among the league presidents. It was a tense moment as President William G. Bramham of the National Association informed Scott that the Southern Association had named a new president.

Afterward Scott said the action was a shock to him and that he had been thrown "a low curve."

Evans will serve under a one-year contract, as Scott had, and will receive a salary of \$7,500.

The only important minor league placement made was appointment of Leo (Babby) Hartnett to a two-year term as player-manager of Jersey City, the New York Giants' farm in the International League.

The American Association voted to open its season two weeks later than in the past in order that several of its clubs could train at or close to home.

## New Fight Stews Over NBA Title

NEW YORK, Dec. 4.—(AP)—

There's a new fight stew cooking on the fire today, because the National Boxing Association doesn't believe in "hand-picking" a champion.

That, says NBA President Abe Green, is, in effect, what the New York State Athletic Commission is doing in insisting on recognizing the winner of a Beau Jack-Tippy Larkin fight in Madison Square Garden, December 18, as the world lightweight champion, succeeding Sammy Angott, who abdicated a few weeks ago because of injured hands.

## Bill Vickroy Invited To Play on North Team

CHICAGO, Dec. 4.—(AP)—Lynn Waldorf, football coach of Northwestern University, today named Bill Vickroy, Ohio State center, to join an eastern eleven selected by Carl Snavely, Cornell coach, to form the north team which will meet the south in the annual Blue-Gray game at Montgomery, Ala., December 26.

## Lynn and Les Horvath To Play on East Team

NEW YORK, Dec. 4.—(AP)—Quarterback George Lynn and Halfback Les Horvath of Ohio State University are among 17 players who have accepted invitations to play on an eastern team against a western eleven in the Shrine football game at San Francisco, January 1.

## 1942 Football Oddities

Passers Catch Own Passes - - Tackles Make Touchdowns

By AUSTIN BEALMEAR

NEW YORK, Dec. 4.—(AP)—

Two players caught their own passes, a guard scored twice in one game and a tackle once carried the ball for a six-yard gain during the 1942 football season, which produced enough upsets to drive the fans crazy but didn't confine all its dizzy doings to the final scores.

These and other oddities were uncovered today in an Associated Press survey of the nation's gridiron goofiness.

Probably the prize oddity of the year came in the Illinois upset of Minnesota when an Illinois guard, Alex Agase, scored two touchdowns on plays that originated with the Gophers snapping the ball. Agase first stole the ball from Bill Daley on the dead run and didn't stop until he had crossed the goal line. Then a bad pass from the Minnesota center scooted into the end zone and Agase pounced on it for another touchdown.

Big Six Conference passers did all sorts of peculiar things. Ray Evans of Kansas tossed a pass against Iowa State, but it was batted back and he caught it himself for a one-yard loss. Royal Lohry of Iowa State pulled the same stunt against Villanova, but lost much more ground.

Bob Steuber of Missouri hurled a pass intended for Marshall Shurnas in the Oklahoma game. The ball struck Shurnas on the head, bounced back to the line

of scrimmage and was intercepted by Oklahoma's Dub Lamb.

It was in the game between Texas A. and M. and Texas Christian that Wayne Cure, an Aggie tackle, caught the ball on a field goal attempt and rammed back for a six-yard gain. When T. C. U. played Texas, the ball changed hands on three successive plays—all fumbles.

It took the snow to stop Fullback Tony Butkovich of Illinois when the country's No. 1 team, Ohio State, failed. Butkovich caught State's kickoff on his 20-yard line and ran through the entire Buckeye team. He was in the clear with no one near him when he ran out of bounds on the three-yard line, after going 77 yards. Snow, which Tony thought was the boundary line, had blown onto the field and he was out by a foot. He got the touchdown on the next try, however.

## Night Games To Continue In Baseball

CHICAGO, Dec. 4.—(AP)—The major leagues at a joint meeting with baseball commissioner K. M. Landis Thursday decided to continue the same program of night games in 1943 as they played in 1942.

The program calls for a maximum of 14 at home night games for any club except Washington in the American League. The Senators will be permitted to play a total of 21 night contests. Previously the National League representatives expressed a desire for only 7 at home night games, but agreed at today's meeting to follow last year's schedule again.

A proposal originating among some minor league clubs that they be permitted to freeze the rights to their players in the event war conditions force them to suspend operations, was voted down.

## Willie Turnesa Of U. S. Navy Puts Sparkle in Open

MIAMI, Fla., Dec. 4.—(AP)—For the second time this year a uniformed member of the golfing Turnesa family from Elmsford, N. Y., put a dash of suspense today into a war-time tournament. Chief Specialist Willie Turnesa of the Navy—the 1938 National Amateur champion and now an instructor in the Free Gunners School at Hollywood, Fla.—started the second round of the \$5,000 Miami Open in third place after carding a two-under-par 68 for an opener.

He was only two strokes off the first round pace, set by Ben Loving of Springfield, Mass., with a pair of 33's, and trailed Harold McSpaden of Philadelphia, who had 34-33.

## Former Basketball Star Of Bobcats Is Married

NEW PHILADELPHIA, Dec. 4.—(AP)—Frank Baumholtz, once a basketball star at Ohio University, was honeymooning today with the former Bettie Bell, Cleveland school teacher. They were married at Midvale. Baumholtz now is an ensign and played with the Great Lakes Naval Station basketball and baseball team last season.

## Negro Private Is the First American Ashore When Yanks Took Over Africa

By JOSEPH MORTON

WITH U. S. FORCES IN LIBERIA (Delayed) — (AP)—

Napoleon Edward Taylor, 31-year-old Negro private first class, led ashore the first American expeditionary force ever to set foot in Africa.

The honor of being the first ashore of this Negro A.E.F. went to him simply because he happened to be the first man in line in the first of a fleet of age-worn, canvas-topped lighters which carried the detachments of crack Negro troops across the most treacherous sandbar known to seamen on the west African coast and landed them, wet and

bedraggled, on the Liberian shore (June 17).

On the advice of Maj. C. S. Ward, whom Taylor served as orderly, he composed and rehearsed carefully a one-sentence greeting to be delivered if he got the chance.

As the first boat pulled up to a dock "somewhere in Liberia" Taylor jumped off, marched forward a few steps and recited it:

"Liberians! We are here to join hands and fight together until this world is free of tyrannical dictators."

The only Liberians around, a half-dozen black-skinned boatmen assisting with the unloading, stopped, looked and listened. One of the group walked over and shook hands. The others silently resumed their work.

Taylor's home is in Baltimore. It was not until dinner time—just before dark—that the first shot rang out. It was fired by a soldier who ventured a few yards into the jungle, spied a pineapple dangling from a tree, and neatly bagged it with his service rifle.

## Pure Point Bowlers Get Even Break

The Pure Pointers, paced by Cooper with a 540, took the first and last games of their Industrial League match with the Albers Marketers but dropped the middle tilt by a six-pin margin when they met on the Main Street alleys Thursday night, but they did not fare so well when they met the Cleo Colas in the other half of the evening's double bill.

The Cleo Cola boys could not get the range in the first game and managed to chalk up a score of only 792 while the Pure Pointers were piling up their best score of the evening, a juicy 934 with the help of a spectacular bit of 235 bowling by Starnier. But, with the bad game out of their system, the Cleo Colas settled down and took the last two games by substantial margins.

east bank, seeking to close the jaws of a trap around the main German siege armies before Stalingrad.

So far, Red Star said, the German strongpoints had managed to keep open the "escape corridor" to the west.

Soviet headquarters said the Germans were desperately launching repeated counterattacks on the central (Moscow) battlefield.

In New Guinea, Gen. Douglas MacArthur's headquarters reported that Allied troops, Americans and Australians, had killed 450 Japanese in the Gona sector as they closed in on enemy forces trapped in that coastal stronghold and nearby Buna.

**Two More Ships Sunk** Allied airmen have sunk two more Axis merchantment out of a convoy attempting to reinforce Germans and Italians battling desperately in the Tunisia triangle, the British announced today, bringing the Allies' two-day total to nine vessels sent to the bottom along the enemy's increasingly hazardous Mediterranean supply route.

New and heavy blows also were struck simultaneously at Bizerte and Tunis, chief enemy ports of entry, as the Allied land forces regrouped for a new showdown after warding off Axis counterattacks during 48 hours of bitter fighting in which losses were declared by an Allied spokesman to have been heavy on both sides.

But despite the repeated enemy assault to eject them, the Allies were reported to be in control of two of the towns forming the strategic Tunisia triangle, Tebourba and Mateur, and to be fighting in the western outskirts of the third, Djedeida.

British middle east headquarters credited the two new sinkings to Allied planes which pounced on a south-bound enemy convoy off Tunisia Wednesday night.

SHORTAGE OF MEAT IS FELT IN CHICAGO

**Butchers Closing Shops in Heart of Packing Business**

**CHICAGO, Dec. 4.—(P)—**There is a meat shortage in Chicago, the world's largest meat center, as well as in other sections of the country and hundreds of butcher shops have been forced to close.

George Dressler, president of the retail meat dealers' association of Chicago, said that 500 of the city's 5,000 butchers licensed last January have been forced out of business because of the meat shortage.

"The situation is not only critical from the standpoint of the meat dealer, but is rapidly becoming worse and is near the fatal stage," Dressler said.

**NEW YORK** **STOCKS**—Easy; leaders in slow decline. **BONDS**—Steady; low-priced rails advance.

**CHICAGO** **WHEAT**—December contracts higher; demand for cash grain. **CORN**—About steady. **HOGS**—Active; mainly steady; top \$13.60. **CATTLE**—Supply mostly cows; steady.

**GRAIN MARKET NEWS SUMMARY** **CHICAGO, Dec. 4.—(P)—**Buying of contracts specifying delivery of wheat before the end of this month rallied the wheat market today. Earlier there was a show of weakness following word that the ceiling on flour had been extended, without upward revision as some traders expected.

December wheat rose more than a cent a bushel at one time but deferred contracts had little show of this strength.

The price of above \$1.27 for December futures was the highest in two months. Top grades of yellow corn, quoted above 90 cents in the spot market, were the highest since 1937.

Pretty Doll Clothes

By ANNE ADAMS  
A most adorable doll wardrobe—is this "little sweetheart" outfit by Anne Adams, Pattern 4925. Make it as a gift for a little girl's favorite doll. There are a "best" frock, a playsuit and a coat, each with a bonnet; also a bunting and dainty undies. Use remnants.  
Pattern 4925 is available for dolls measuring 10, 12, 14, 16, 18 and 20 inches. For individual yardages, see the pattern.
